

SYLLABUS Academic year 2022-2023

1. Information regarding the programme

1.1. Higher education institution	Babeş-Bolyai University	
1.2. Faculty	Faculty of Business	
1.3. Department	Business	
1.4. Field of study	Business Administration	
1.5. Study cycle	Undergraduate	
1.6. Study programme / Qualification	Business Administration	

2. Information regarding the course

000	
2.1. Name of the course	Economic and Financial Analysis
2.2. Code ILE0026	
2.3. Course coordinator Associate Professor Larissa-Margareta Bătrâncea, Ph.D.	
2.4. Seminar coordinator	Associate Professor Larissa-Margareta Bătrâncea, Ph.D.
2.5. Year of study 3 2.6. Semester	I 2.7. Type of evaluation E 2.8. Type of course Compulsory

3. Total estimated time (hours/semester of didactic activities)

3.1. Hours per week	4	Of which: 3.2. lecture	2	3.3 seminar/laboratory	2
3.4. Total hours in the curriculum	48	Of which: 3.5. lecture	24	3.6. seminar/laboratory	24
Time allotment:					
					s
Learning using manual, course support, b	ibliogr	aphy, course notes			30
Additional documentation (in libraries, or	n electi	onic platforms, field doo	cument	ation)	30
Preparation for seminars/labs, homework, papers, portfolios and essays					30
Tutorship					2
Evaluations					2
Other activities: Preparing the final exam					8
3.7. Total individual study hours					102
3.8. Total hours per semester					150
3.9. Number of ECTS credits					6

4. Prerequisites (if necessary)

4.1. curriculum	The course requires knowledge of basic notions provided by the disciplines Corporate Finance and Financial Accounting studied in year II of the bachelor study cycle.
4.2. competencies	Not applicable.

5. Conditions (if necessary)

5.1. for the course	Course room with computer and beamer.	
5.2. for the seminar /lab activities	Course room with computer and beamer; students should	
	bring pocket calculators.	

6. Specific competencies acquired

-	C1. Gathering, processing and analyzing data regarding the interaction between a company/an
	organization and the external environment
	C1.1. Explaining and interpreting the economic influence of the external environment on a
cies	company/an organization
enc	C1.2. Using appropriate tools in analyzing the influence of the external environment on a
pet	company/an organization
om	C1.3. Assessing critically and constructively the way of explaining and/or solving problems
ıl c	referring to the economic influence of the external environment on a company/an organization
onî	C2. Providing assistance for running a company/an organization as a whole
issi	C2.1. Identifying company/organization-related economic concepts and theories
Professional competencies	C2.2. Drawing-up an analysis referring to the relationships with economic implications among
Pr	various company/organization subdivisions
	C3. Running a subdivision of a company/an organization
	C3.1. Identifying the economic implications associated with the functioning and running of a company/an organization subdivision
al ies	CT1. Implementing ethical principles, norms and values within one's own rigorous, efficient and
ers	responsible strategy of work
Transversal	CT2. Identifying various opportunities for continuing education and efficiently using learning
[raı əm]	resources and techniques for their development
- ⁻ 5	1 1

7.1. General • Becoming well-acquainted with the basic concepts of economic and financial analysis; objectives of the • Emphasizing the phenomena and processes within the economic environment by using course general or specific investigation methods; • Developing capabilities of using statistical-mathematical instruments in practicing economic and financial analysis; • Acquiring a scientific language, specific for economic and financial analysis. Part I: Theoretical-methodological bases of economic and financial analysis: • Learning instruments useful to elaborate models for efficiently analyzing phenomena occurring within the microeconomic environment; • Interpreting influences of factors which act upon economic phenomena and suggesting adequate solutions for increasing economic efficiency; 7.2. Specific • Determining the role of economic and financial analysis with respect to each decisionobjectives of the maker/user of financial statements. course Part II: Analysis of the entity's economic and financial status: • Developing abilities of "reading" financial statements; • Getting accustomed to the structure of financial statements and the information they provide, in order to achieve a global economic and financial analysis as relevant as possible;

7. Objectives of the course (outcome of the acquired competencies)

• Acquiring the methodology of analyzing financial statements and developing students'
capabilities of computing and, chiefly, interpreting indicators typical for the economic and
financial analysis.

8. Content

8.1. Course	Teaching Method	Remarks
1. Economic and financial analysis – methodological approaches	interactive	
 Models of analysis 	discussion,	
 Decomposing into factors 	questioning,	1 lecture
• Order of phenomena evolution	heuristic	
• Quantitative and qualitative factors	conversation	
2. Microeconomic analysis system	interactive	
 Components of the microeconomic analyses system 	discussion,	
 Types of of microeconomic analysis 	questioning,	1 lecture
• Specificity of microeconomic analysis	heuristic	
• Stages and content of the analysis process	conversation	
3. Methodology of the entity's economic and financial analysis	••	
• Method of isolated determination	interactive	
• Substitution method	discussion,	1 10 00000
• Coefficients distribution method	questioning, heuristic	1 lecture
• Matrix method	conversation	
Balance method	conversation	
4. Methodology of the entity's economic and financial analysis		
Relative substitution method	interactive	
• Indices method	discussion,	
• Index logging method	questioning,	1 lecture
Relative balance method	heuristic	
• Regression analysis method	conversation	
• Production functions method		
5. Analysis of the entity's financial position	interactive	
5. Analysis of the entity's financial positionBalance sheet	discussion,	
	questioning,	1 lecture
• Analyzing the evolution of financial position by determining chain- based indices	heuristic	
	conversation	
6. Analysis of the entity's financial position	interactive	
Structure ratios	discussion,	
• Comparing results with average values corresponding to different	questioning,	1 lecture
industries and with safety intervals	heuristic	
	conversation	
7. Financial analysis of asset management	interactive	
• Assets turnover ratios	discussion,	1.1
• Treasury excess/deficit	questioning,	1 lecture
• Dynamic model of inventories turnover ratios	heuristic	
	conversation	
8. Financial analysis of resource management	interactive	1 lecture
Liabilities turnover ratios	discussion,	

• Treasury exce		questioning,	
• Comparison with assets turnover ratios		heuristic conversation	
 9. Analysis of financial equilibrium Liquidity Solvency Working capital 		interactive discussion, questioning, heuristic conversation	1 lecture
 10. Analysis of financial performance Income statement Vertical and horizontal analysis Structure ratios Profitability ratios 		interactive discussion, questioning, heuristic conversation	1 lecture
11. Cash flow analysis interactive • Cash flow statement interactive • Direct method of determining cash flows on three types of activities discussion,		1 lecture	
 12. Bankruptcy risk analysis Statistical models Banking models Safety gaps 		interactive discussion, questioning, heuristic conversation	1 lecture

9. Corroborating the content of the course with the expectations of the epistemic community, professional associations and representative employers within the field of the program

The course is useful for all liberal professions derived from the economics profession, as following:

- Credit analyst, in grounding the analysis of the bank clients' creditworthiness;
- Stock market analyst, in grounding decisions of investing on the stock market;
- Financial evaluator, in grounding assessment diagnosis;
- Financial auditor, in stating the auditor's opinion, especially concerning the application of the continuous activity principle;
- Accounting expert, in diagnosing the financial state of the entity;
- Fiscal consultant, in grounding the tax base, which is directly linked to the financial performances achieved by an economic entity;
- Financial liquidator, in grounding the diagnosis for liquidating an economic entity.

10. Evaluation

Type of activity	10.1 Evaluation criteria	10.2 Evaluation method	10.3 Percentage in the final grade
10.4. Course	 Correctly applying the learnt notions Interpreting the obtained results 	Final exam	60%
10.5. Seminar/lab	Capacity of applying the learnt notions	Bonus points obtained	
activities	 Interest for individual training Seriousness in approaching problems 	Bonus points obtained during the semester	40%
10.6. Minimum performance standards			
• Knowledge of basic no	otions and their application to	practical situations;	
• Interpretation of the results obtained.
